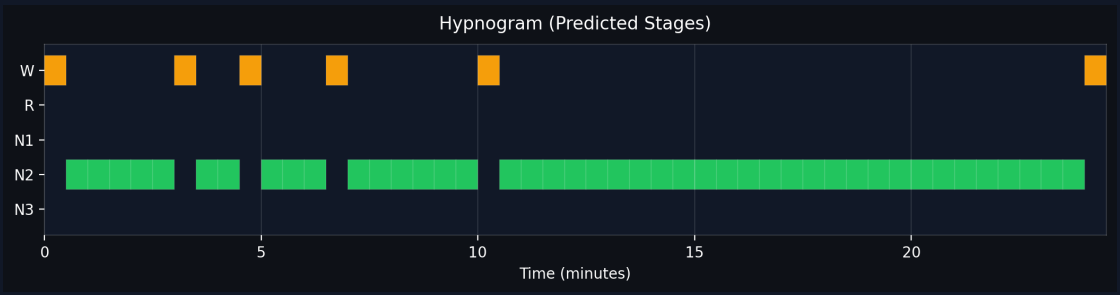
Muse Sleep Run Report

2026-03-03 08:19 PM → 2026-03-03 08:43 PM

RUN REPORT



Key metrics

Epochs: 49 | Duration: 24.5 min

Sleep time: 21.5 min | Wake: 3.0 min

Sleep efficiency: 87.8%

Sleep onset: 0.5 min | Awakenings: 5

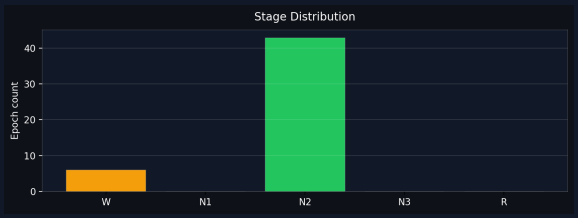
Stage mins: W 3.0 | N1 0.0 | N2 21.5 | N3 0.0 | R 0.0

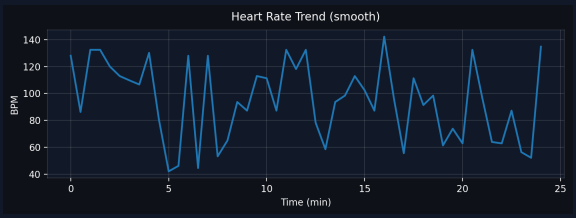
HR smooth: avg 95 bpm (min 42, max 142)

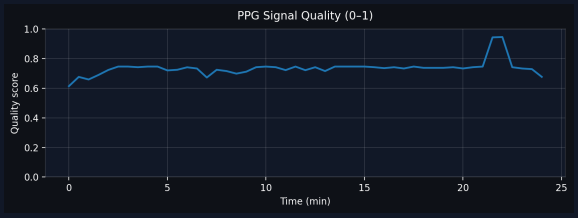
Recommendations

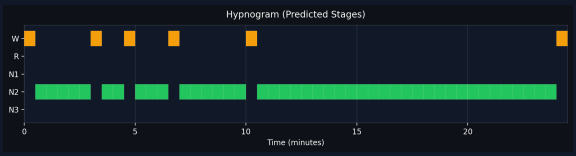
- This was a short session (≤30–60 min). Treat the staging as a sensor / setup check, not a full-night sleep evaluation.
- For real sleep-quality insights, run overnight (ideally 6–9+ hours) and stop in the morning to generate the full

General wellness guidance only (not medical advice).

Visual Summary








Stage composition, heart rate trend, and signal quality (when available).
